📁 EXPERIENCE

Full stack developer intern at qikbuk in gurgaon

1 March 2024 to 31 May 2024

Collaborated with the development team on two projects, creating dynamic and responsive web interfaces.

1. Vehicle Tracking System:

- Developed real-time tracking with interactive maps using React.js.
- Integrated RESTful APIs for live vehicle data display.

2. Bidding System:

- Crafted an intuitive and user-friendly interface.
- Enhanced performance for a fast and seamless bidding experience.

📁 PROJECTS

Online Doctor Appointment Booking Application 📄

Doctor Appointment Booking Admin Panel 📄

An online doctor appointment booking app that lets users schedule appointments and make secure payments, while doctors can accept bookings and manage schedules. An admin panel supervises appointments and transactions.

Github 📄

Features:

- User signup and login, including doctor and admin login.
- functionality to accept or cancel appointments and manage payments using razorpay in admin page.
- Users can book doctors and filter by specialty and update doctors or their profile.

Tech-Stack

MERN Stack along with Tailwind Css.

Area of Responsibility

Full responsibility for whole site.

Online E-commerce Web Application 📄

Created an e-commerce RESTful web application offering a variety of products for order across India

Github 📄

Features

Signup, Login for multiple users, product search, filter, cart, and order functionality and delete functionality and payment method as well.

Tech-Stack

HTML | CSS | Javascript | Bootstrap | React.js | Node.js |
MongoDB

Area of Responsibility

Full responsibility for whole site.
